

Key Stage 1 – Year 1 and Year 2

Spring 1st Half Term 2023

Who was the first man on the moon?

As readers we will read a range of fiction and non-fiction space books.

Including the exciting tales of the Man on the Moon.
As writers we will write a setting description for our space story, an alternative alien ending, An Apollo 11 information leaflet and an informative newspaper article about the moon landings.

As mathematicians we will continue to develop our place value knowledge.

Refine our methods of solving addition and subtraction problems as well as looking more carefully at strategies that can be used to help solve multiplication and division calculations.

As scientists we will learn observe the seasonal changes of the UK as well as looking at its weather patterns.

We will also learn about the properties of different materials and their uses.

As designers we will create our own space rockets and space buggies using recycled materials and the moon surface using trays of flour and marbles.

We will also make our own moon cakes, which will taste delicious.

As athletes we will develop our agility, balance and co-ordination through basic skills and dance.
