

Key Stage 1 - Year 1 and Year 2
Summer 1st half term 2024

Where do Kings and Queens live?

We will learn about past and presents kings and queens of the United Kingdom. We will research everything about King Charles III and present this to our class. We will be enthused when reading the traditional fairy tale: Cinderella and will be excited to write our very own character description. We will also explore key features of poetry and write our own before performing it to our class. In DT we will look at the materials we need to build a fortress fit for a King. This links to our science work, where we will look at the properties of these materials.

As **readers** we will read a selection of picture books (The Queens Knickers) using our Reading Characters to help us comprehend what we have read.

As **writers** we will write our own alternative ending to the traditional fairy tale Cinderella.

As **mathematicians** we will revise our multiplication and division knowledge. Looking at the four operations. As well as this we will build on our knowledge of measure. Measuring in standard units.

As **scientists** we will learn about a variety of different materials and their properties. Selecting the best one to make a castle.

As **designers** we will design and create a fortress fit for a King using the knowledge we have gained in our science lessons.

As **communicators** we will discuss our ideas and share our views by taking turns.

As **athletes** we will develop our co-ordination through our throwing and catching skills. We will develop our balance through running and jumping.

As **technicians** we will research different castles and present this information in a PowerPoint.
