

ASHURST CE AIDED PRIMARY SCHOOL

ACCESSIBILTY PLAN

Applicable
from DECEMBER 2017

INTRODUCTION

This policy will be reviewed in response to changing circumstances in school and guidance and advice issued by LA and DfE

This policy is the responsibility of the Full Governing Body, in consultation with the Headteacher.

ASHURST CE AIDED PRIMARY SCHOOL

ACCESSIBILITY PLAN

The school accepts that disabled access is extremely limited due to the age and structure of the main school building.

Access to the school site (junior playground) is possible - there is a small ramp which would not deter wheelchair access. However, access to School House is not available to wheelchair users owing to a step.

The new school building is fully accessible except for toilet facilities. The school may consider installing a hearing loop as and when appropriate and may incorporate a more visually stimulating colour scheme when the building is due for internal redecoration.

The school has a plan of the building showing where structural alterations would be required should the school need to accommodate physically disabled stakeholders.

The Headteacher welcomes prospective parents for whom the above might be of concern, with regard to future admission to the school, to contact School Office for further information and discussion.
